

I'm committed to transparency in government, because I think an informed citizenry is the key to democracy. Public disclosure of funding requests is an important part of that, and below you'll see a list of all funding request I've made that are to be considered by the House.

Fiscal Year 2011 Funding Requests As part of her commitment to increase transparency in government, below are Congresswoman Melissa Bean's (IL-08) funding requests for FY2011. All recipients are either not-for-profit or government entities. The projects and amounts requested do not guarantee funding. After requesting priority projects, the House Appropriations Committee considers requests from all Members of the House and decides which projects receive funding and how much funding they receive. Therefore, the list of funding requests below cannot be accurately used for a year-to-year comparison against previous lists. Note: Requests are listed by bill and in alphabetical order.
